Volume 4, Numbers 1-4, 1970

SOLAR SYSTEM RESEARCH
Volume 4, Numbers 1-4, 1970

(A translation of Astronomicheskii Vestnik)

A

Andrianov, N. S. - 34
Artem'ev, A. V. - 94

B

Baldwin, Ralph B. - 133
Barabashov, N. P. - 21, 77
Benyukh, V. V. - 198
Bobrov, M. S. - 127
Bondarenko, L. N. - 119, 173

C

Chikanov, Yu. A. - 137

D

Dagaev, M. M. - 56

F

Fedosenko, V. G. - 104

G

Gavrilov, V. P. - 17

I

Ibragimov, N. B. - 23

K

Kashcheev, B. L. - 203
Katasev, L. A. - 169
Khotinok, R. L. - 158
Klyakotko, M. A. - 161
Klystov, A. I. - 53
Korpusov, V. N. - 82
Kovbasyuk, L. D. - 216
Kramer, E. N. - 207
Kulagin, S. G. - 216
Kuz'min, A. D. - 5, 190

L

Lagutin, M. F. - 169
Lebedinets, V. N. - 82
Leikin, G. A. - 119, 173
Losovskii, B. Ya. - 190
Lysenko, I. A. - 169

M

Martynenko, V. V. - 39, 172
Musii, V. I. - 88, 207

N

Naumov, A. P. - 187
Nesmyanovich, A. T. - 100
Nesterko, N. A. - 110
Novikov, V. V. - 147
Novoselova, N. V. - 203

P

Palei, A. B. - 108
Petruchek, T. P. - 169
Pogodicheva, N. A. - 110
Popova, V. P. - 34

R

Radzievskii, V. V. - 56

S

Shestaka, I. S. - 88, 207
Shkerin, L. M. - 153, 214
Shuvalov, V. M. - 164
Sidorov, V. V. - 34
Simonenko, A. N. - 91
Solov'ev, V. Ye. - 110
Strelkov, G. M. - 187
Suetenko, O. D. - 214

T

Teifel', V. G. - 26, 65
Tkachuk, A. A. - 203
Troitskii, V. S. - 184
Tsvetkov, V. I. - 44

V

Vetukhnovskaya, Yu. N. - 5, 190

Z

Zinov'ev, V. A. - 63, 116
Zotkin, I. T. - 44

SOLAR SYSTEM RESEARCH
Volume 4, Numbers 1-4, 1970
(A translation of Astronomicheskii Vestnik)

Volume 4, Number 1 January-March, 1970

	Engl.	Russ.
A Century since the Birth of V. I. Lenin	1	3
The Planet Venus—Yu. N. Vetukhnovskaya and A. D. Kuz'min	5	8
Possible Periodicity in the Thermal History of the Moon—V. P. Gavrilov	17	24
The Integral Brightness of Mars—N. P. Barabashov	21	29
Spectrophotometric Study of Details on Venus—N. B. Ibragimov	23	31
Optical Properties and Structure of the Jovian Atmosphere. III. Spectrophotometric Characteristics of the Red Spot—V. G. Teifel'	26	34
Study of the Orbits of Small Meteoric Bodies by the Oblique Radiosonde Method—N. S. Andrianov, V. P. Popova, and V. V. Sidorov	34	43
Minor Meteor Streams in August and September of 1968—V. V. Martynenko	39	49
Searches for Meteorite Craters on the Earth—I. T. Zotkin and V. I. Tsvetkov	44	55
Line Formation Mechanism for $^2\Pi - ^2\Delta$ Transition, $\lambda = 4300$ Å, of CH Molecule in the Photosphere of the Sun—A. I. Klystov	53	66
Graphical Method for Solving the Two-Body Problem—M. M. Dagaev and V. V. Radzievskii	56	70
OBSERVATIONS		
Observations of Venus during 1964-1967—V. A. Zinov'ev	63	78

Volume 4, Number 2 April-June, 1970

	Engl.	Russ.
The Giant Planets—V. G. Teifel'	65	81
Methods of Determining the Smoothness Factor of Planetary Surfaces—N. P. Barabashov	77	96
Orbits of Radiometeors—V. N. Korpusov and V. N. Lebedinets	82	102
Determination of the Mass Evaporating during a Meteor Flare—V. I. Musii and I. S. Shestaka	88	108
Nomograms for Determination of Corrections for Zenithal Attraction—A. N. Simonenko	91	112
Allowed Regions of Motion of Charged Particles near the Earth—A. V. Artem'ev	94	115
The Structure of the Solar Corona on September 22, 1968—A. T. Nesmyanovich	100	123
Certain Results of a Study of the Large Astrograph of the P. K. Shternberg State Astronomical Institute Krasnopresnenskaya Observatory—V. G. Fedosenko	104	128
An Electrical Clock Mechanism Consisting of Typical Sections—A. B. Palei	108	133
Times of the First and Fourth Contacts of the Total Solar Eclipse of September 22, 1968, at Shadrinsk—N. A. Nesterko, N. A. Pogodicheva, and V. Ye. Solov'ev	110	136
Observations of Mercury during 1964-1967—V. A. Zinov'ev	116	141

Volume 4, Number 3 July-September, 1970

Soviet Studies of the Physical Properties of the Lunar Surface – L. N. Bondarenko and G. A. Leikin	119	145
New Data on the System of Saturn – M. S. Bobrov	127	155
Comments on G. S. Steinberg's Paper "On the Origin of the Large Lunar Craters and Circular Maria" – Ralph B. Baldwin	133	162
Determining the Parameters of the Moon's Gravitational Field from the Tracking Measurements of Artificial Lunar Satellites – Yu. A. Chikanov	137	167
Comparison of the Polarization Characteristics of the Volcanic Coverings of the Kamchatkan Peninsula and the Lunar Surface – V. V. Novikov	147	178
Collisions of Large Meteoritic Masses with the Earth and the Moon – L. M. Shkerin	153	185
On the Light Curve of Telescopic Meteors – R. L. Khotinok	158	191
Latitudinal Variations of the Velocities of Nonreturning Groups of Sunspots with the Phase of the Solar Activity Cycle (11-12 Cycles) – M. A. Klyakotko	161	194
Dependence of the Solar Cycle on the Position of the Planets – V. M. Shuvalov	164	198
OBSERVATIONS		
Radar Meteor Counts in the Antarctic – L. A. Katasev, M. F. Lagutin, I. A. Lysenko, and T. P. Petruchek	169	204
Shower of Faint Meteors on October 22-24, 1969 – V. V. Martynenko	172	206

Volume 4, Number 4 October-December, 1970

Soviet Studies of the Physical Properties of the Lunar Surface. II. Results of Earth-Based Observations – L. N. Bondarenko and G. A. Leikin	173	209
The Effective Thickness of the Moon's Radioactive Layer – V. S. Troitskii	184	222
Theoretical Submillimeter Emission Spectrum of Venus (T) – A. P. Naumov and G. M. Strelkov	187	226
Measurements of the Radio Emission of Mars at 8.22 mm and Estimate of the Thermal and Electric Parameters of the Planet's Surface – Yu. N. Vetukhnovskaya, A. D. Kuz'min, and B. Ya. Losovskii	190	231
Some Features of Flaring Meteors – V. V. Benyukh	198	241
Characteristics of the Orbits of Weak Meteors (Up to $+12^m$) – B. L. Kashcheev, N. V. Novoselova, and A. A. Tkachuk	203	248
Atmospheric Trajectories of Meteors Observed at Odessa during 1957-1966 – E. N. Kramer, V. I. Musii, and I. S. Shestaka	207	252
A Proposed Meteorite Crater in Southeastern Mongolia – O. D. Suetenko and L. M. Shkerin	214	261
Determination of the Semiannual Nutation Term – L. D. Kovbasyuk and S. G. Kulagin	216	264
